16. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well has been temporarily abandoned since March, 1969. This well offsets a flood to the east and as soon as fill up point is reached and if response is indicated this well will be re-drilled. We would like to retain this well for observation until this occurs. At this time, we still do not know when the fill up point will be reached and we would like to continue the temporarily abandoned status.

The present condition of the well is such as to prevent damage to the producing zone, migration of hydrocarbons or water, the contamination of fresh water or other natural resources, or the leakage of any substance at the surface.

Expires 10/1/76

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
