

NEW MEXICO OIL CONSERVATION CO. COMMISSION

MISCELLANEOUS REPORTS ON WELLS

DUPLICATE
 Submit this report in triplicate to the Oil Conservation Commission District Office within ten days after the work specified is completed. It should be signed and filed as a report on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below.

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF	X	REPORT ON DEEPENING WELL	
REPORT ON RESULT OF PLUGGING OF WELL

THEORY OF THE EARTH

The theory of the earth is a branch of geology which deals with the origin and development of the earth and its various parts. It is a science which seeks to explain the processes which have shaped the earth and its features.

THE EARTH AND ITS PARTS

The earth is a sphere which is divided into four main parts: the crust, the mantle, the core, and the atmosphere. The crust is the outermost layer of the earth, and it is the part which we live on. The mantle is the layer below the crust, and it is the part which is made of molten rock. The core is the innermost layer of the earth, and it is the part which is made of molten metal. The atmosphere is the layer of gas which surrounds the earth.

The theory of the earth is a branch of geology which deals with the origin and development of the earth and its various parts. It is a science which seeks to explain the processes which have shaped the earth and its features.

DEC 3 1951

OIL CONSERVATION COMMISSION
HOBBS-OFFICE

Bartlesville, Oklahoma

November 23, 1951

Place

Date

Notice hereby is given that it is our intention to commence the drilling of a well to be known as

Phillips Chemical Company

Chem-Mattix

well No. **1**

in **NE/4 NW/4**

Company or Operator

Lease

of Sec. **2**, T. **24S**, R. **37E**, N. M., P. M., **Langlie-Mattix**, Lea County.

N

The well is **660** feet from (N.) (~~S~~) line and **662** feet from

(E.) (~~W~~) line of the above section. **in NW/4.**

(Give location from section lines. Cross out wrong directions.)

If state land the oil and gas lease is No. **B-9974** Assignment No. **- - -**

If patented land the owner is **- - -**

Address **- - -**

If government land the permittee is **- - -**

Address **- - -**

The lessee is **Phillips Chemical Company**

Address **Bartlesville, Oklahoma**

We propose to drill well with drilling equipment as follows:

To be drilled with rotary

The status of a bond for this well in conformance with Rule 101 of the General Rules and Regulations of the Commission is as follows: **Bond being applied for.**

We propose to use the following strings of casing and to land or cement them as indicated:

Size of Hole	Size of Casing	Weight Per Foot	New or Second Hand	Depth	Landed or Cemented	Sacks Cement
11"	8 5/8"	28#	New	350'	Cemented	Circulate
7 7/8"	5 1/2"	14#	New	3400'	Cemented	Circulate

If changes in the above plans become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about **3600** feet.

Additional information: **Well to be drilled to depth sufficient to test Queen Sand.**
