

MULTI-POINT SURFACE USE AND OPERATIONS PLAN

GETTY OIL COMPANY
MYERS LANGLIE MATTIX UNIT
WELL NO. 163

1980' FSL and 660' FEL, Sec. 4-24S-37E
LEA COUNTY, NEW MEXICO
LEASE: New Mexico LC-032450-B

This plan is submitted with our Application to convert the above well to injection. The purpose of the plan is to describe the location of the well, the proposed construction activities and operations plan, the magnitude of necessary surface disturbance involved, and the procedures to be followed in rehabilitating the surface after completion of the operation so that a complete appraisal can be made of the environmental effects associated with the operation.

(1) Existing Roads:

- A. Exhibit "A" is a highway map showing the location of the well. The location is as follows: Take highway 18 from Hobbs to Eunice. From Eunice continue south on highway 18 for approximately 12.5 miles. Turn left on lease access road shown in Exhibit "B", and continue southeast approximately 2.5 miles to the well site.
- B. Exhibit "B" is a lease map showing existing roads and the access road to the location.

(2) Planned Access Road:

No new road will be required.

(3) Location of Existing Wells:

- A. Exhibit "B" shows wells within a one mile radius of the well.

(4) Location of Existing Facilities:

- A. Exhibit "C" shows the existing injection line and the line to be layed from it to this well. The new line will be coated and wrapped and buried.

(5) Type of Water Supply:

- A. Water for the workover will be trucked to the well site from Jal, New Mexico over the existing roads shown on Exhibit "B".

(6) Source of Construction Materials:

- A. None Required.

(7) Methods of Handling Waste Disposal:

- A. Drill cuttings will be disposed of in the workover pit.

- B. Workover fluids will be allowed to evaporate in the pit until the pit is dry.
 - C. Current laws and regulations pertaining to the disposal of human waste will be complied with.
 - D. Trash will be buried in a trash pit and covered with a minimum of 24 inches of dirt. All waste material will be contained to prevent scattering by the wind.
 - E. All trash and debris will be buried or removed from the well site within 30 days after finishing workover operations.
- (8) Ancillary Facilities:
A. None required.
- (9) Wellsite Layout:
A. Present pad will be used. Workover pit in old pit area.
- (10) Plans for Restoration of the Surface:
A. After completion of operations, all equipment and other material not needed for operations will be removed.
B. Workover pit will be fenced until it is filled.
C. Any special rehabilitation and revegetation requirements of the surface management agency will be complied with and accomplished as soon as possible. The pit will be filled and levelled within 90 days of completion or abandonment of the well.
- (11) Other Information:
A. Topography: The land surface is arid and gently rolling. From an elevation of 3780' at the well site, the surface slopes toward the Southeast at about 30' per mile.
B. Soil: The topsoil is sandy.
C. Flora and Fauna: This area is sparsely covered by sage brush and native grass. Wildlife in the area is mainly rabbits, rattlesnakes and coyotes.
D. Ponds and Streams: There are no rivers, streams, lakes or ponds in the area.
E. Residences and Other Structures: The nearest occupied dwelling is 1.5 miles northwest of the well site.
F. Archeological, Historical and Cultural Sites: None observed in the area.
G. Land Use: Grazing.
H. Surface Ownership: Well site and access road are on Fee Surface.
- (12) Operator's Representative:
The field representative responsible for assuring compliance with the approved surface use and operations plan is:

Dale R. Crockett
P. O. Box 730
Hobbs, New Mexico 88240
Office Phone: 505-397-3571
Home Phone: 505-393-6326

(13) Certification:

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drillsite and access route; that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge true and correct; and, that the work associated with the operations proposed herein will be performed by Getty Oil Company and its contractors and sub-contractors in conformity with this plan and the terms and conditions under which it is approved.
