Form 9-331A dated October 14, 1954. Approval was granted October 19, 1954. Operations consisted of plugging back to 3195', perforating 2810' to 2856' and 2720' to 2790' and fracturing with 26,922 gallons of lease crude containing 32,729 lbs. of sand. Following this work the well was potentialed at the rate of 1125 MCF per day.

Concerning the exception to Rule No. 2, we wish to state the following:

(A) The unorthodox location was occasioned by the recompletion of the well previously drilled to another horizon.
(B) All operators within a 1980' radius of the subject well have been furnished a copy of this application.

With regard to the exception to Rule No. 5(a), we wish to state the following:

(A) That the proposed non-standard gas proration unit of 320 acres consisting of the S/2 Section 4, T-24-S, R-37-E is composed of contiguous quarter-quarter sections.
(B) That the proposed non-standard gas proration unit lies wholely within a single governmental section.
(C) That the entire proposed non-standard gas proration unit may reasonably be presumed to be productive of gas.
(D) That the length or width of the proposed non-standard gas proration unit does not exceed 5280'.
(E) That by copy of this letter of application all offset operators owning interest in the section in which the non-standard gas proration unit is situated and which acreage is not included in said non-standard gas proration unit and all operators owning interest within 1500' of the well have been notified by registered mail of this application.

Location of the subject well is not within the boundaries of the Jalmat Field, however, it is less than one mile outside of the horizontal limits. Attached is Form C-123 requesting an extension of the existing pool.

Yours very truly,

reph Lieuduskon

Ralph L. Hendrickson Field Superintendent
