May 24, 1961

Well No. 7 is located 1980 ft. from NE line and 330 ft. from W line of sec. 5

NW, SW, Sec. 5 (1/4 Sec. and Sec. No.) 24-S (Twp.) 37-E (Range) NMPM (Meridian)
Langlie-Mattix (Field) Lee (County or Subdivision) New Mexico (State or Territory)

The elevation of the derrick floor above sea level is 3300.6 ft. G.L.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to drill with rotary tools to the Seven Rivers - Queen formation at about 3500'. Set 8-5/8" casing at 330' with cement circulated. If productive, set 5-1/2" casing to total depth and cement with 250 axs. which gives a calculated fillup to 1463'.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
