## NF MEXICO OIL CONSERVATION COMMISSION Santa Fe, New Mexico

## MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

The dates of this work were as follows:  See below Notice of intention to do the work was [warrent submitted on Form C-102 on December 3, 19 and approval of the proposed plan was [warrent] obtained. (Cross out incorrect words.)  DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED  Well was plugged back with rock and lead wool to 3589'.  On 11-30-36 well was shot with 80 quarts nitroglycerine from 3547' to 3569'. After shooting the well was cleaned out to 3589'.  Production before shot 50 bbls oil per day (swabbing through casing).  Production after shot 64 bbls oil per day (swabbing and flowithrough easing).  Witnessed by  Name  Company  Title	Indicate nature of	report by checking below:
