17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Well has been temporarily abandoned since September 1971.

Proposed remedial program as follows:

- 1) Pull and visually inspect tubing.
- 2) Run 4-3/4" bit on tubing, check for fill in open hole and clean out to T.D.
- 3) Run tubing with seating nipple.
- 4) Swab well as long as necessary to establish oil production rate and water/oil ratio.
- 5) Properly dispose of swabbed water and oil.
- 6) Release rig.
- 7) If results so indicate, install pump and pumping unit and tie well into tank battery.

Anticipate commencing remedial work around April 26, 1982 depending on availability of work-over unit.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
