Cross out wrong directions. Assignment No. Royalties Corp. clahoma

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows:

We propose to use the following strings of casing and to land or cement them as indicated:

Size of Hole	Size of Casing	Weight Per Foot	New or Second Hand	Depth	Landed or Cemented	Sacks Cement
11 ¹ 1" 81 ¹ "	9-5/8# 7#	36 lbs. 20 lbs.	Now Now	1200' 3440'	Cemented Cemented	300 250

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate

that the first productive oil or gas sand should occur at a depth of about 3500' feet. In commenting the 9-5/8 OD casing the cement shall be circu-lated back to bottom of cellar. Halliburton process will be used on both strings. Sufficient time shall be allowed for cement to thoroughly set on both jobs before drilling plug and testing. -- - -. .

Approved	Sincerely yours,
except as follows:	SKELLY OIL CO.
	By
	Position District Supt .
