[illegible]

1. The first part of the report is a general statement of the purpose and scope of the study. It states that the purpose of the study is to determine the effect of the new tax law on the income of the average family. The scope of the study is limited to the income of the average family in the United States.

2. The second part of the report is a description of the method used in the study. It states that the method used is a survey of the income of the average family in the United States. The survey was conducted by the Bureau of Economic Warfare.

3. The third part of the report is a description of the results of the study. It states that the results of the study show that the new tax law has had a significant effect on the income of the average family. The income of the average family has decreased by a significant amount since the new tax law was enacted.

4. The fourth part of the report is a conclusion. It states that the new tax law has had a significant effect on the income of the average family. The income of the average family has decreased by a significant amount since the new tax law was enacted.
