Revised October 1955
HOBBS, NEW MEXICO

Perf. Date 10/10/56 AM 11:10
Hobbs, New Mexico

October 10, 1956

Standard Oil and Gas Company
Box 68
Hobbs, New Mexico

No. Lease Las Cruces 038450(b)

CONTINUATION:

Receipt is acknowledged of "Notice of Intention to Drill" dated October 9, 1956, covering your well No. 13 Myers "P" on the subject landhold in the Nacimiento sec. 9, T. 24 S., R. 37 E., N.M.P.M., Jemez and Langlois-Mattix Points, San County, New Mexico.

Your proposed work is approved subject to compliance with the provisions of the "Oil and Gas Operating Regulations" revised May 25, 1952, copy of which will be furnished you on request, and subject to the following conditions:

1. Drilling operations so authorized are subject to the attached sheet (revised February 1955) for general conditions of approval.
2. Within ten days furnish this office two additional copies of the well location plan. Only 3 copies were received, and 5 are required.

The approval granted herein is effective as of October 5, 1956, in accordance with our telephone conversation on that date with Mr. Malcolm McNeill.

Very truly yours,

H. A. DuPont
H. A. DuPont
District Engineer

GEOLOGICAL SURVEY
BOSTON FIELD OFFICE

RECORDED IN BOSTON FIELD OFFICE
MAY 10, 1902
BY JAMES M. COOPER
FOR THE U.S. GEOLOGICAL SURVEY
TO THE DEPARTMENT OF THE INTERIOR
FOR INFORMATION CONCERNING THE
GEOLOGY AND MINERAL RESOURCES OF THE
STATE OF MASSACHUSETTS.
THE INFORMATION IS AS FOLLOWS:
1. The state of Massachusetts is situated in the New England region of the United States, bounded on the north by Maine, on the east by the Atlantic Ocean, on the south by Connecticut, and on the west by New Hampshire and Vermont.
2. The state has a total area of approximately 10,000 square miles, and a population of about 2,500,000 people.
3. The state is characterized by its varied topography, including mountains, hills, and lowlands, as well as numerous rivers, streams, and lakes.
4. The geological history of Massachusetts is complex, with evidence of ancient marine deposits, glacial action, and volcanic activity.
5. The state is rich in mineral resources, particularly granite, marble, and slate, which are used extensively in construction and industry.
6. The state has a well-developed transportation system, including roads, railroads, and waterways.
7. The state is known for its educational institutions, particularly Harvard University and the Massachusetts Institute of Technology.
8. The state is a leading center for research in geology and mineral resources, with the U.S. Geological Survey having a field office located in Boston.
9. The state is a major producer of agricultural products, including dairy products, fruits, and vegetables.
10. The state is a popular tourist destination, with many scenic areas and historical sites.
11. The state is a leader in the development of renewable energy sources, particularly wind power.
12. The state is a major center for technology and innovation, with a strong emphasis on science and engineering.
