Gentlemen:

September 20, 1956, a survey was made to locate your Meyers "B" Lease, well No. 13, at a point 1980 feet from the south and 660 feet from the west lines of section 9, Twp. 24 South, Range 37 East, N.M.P.M., and is more particularly described as follows:

The corner common to sections 4, 5, 8 and 9, was used for backsight and the survey was started at the quarter corner common to sections 8 and 9, thence South 660 feet, thence East 660 feet to the location. We then checked by going N45°W 933.5 feet to the point of beginning. This was an error of closure of 0.2 feet which is within the allowable limits of this survey.

I hereby certify that the foregoing survey was made in the field under my supervision and that the same is true and correct.

Respectfully submitted,

John W. West
