

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or its agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of notice by checking below:

NOTICE OF INTENTION TO TEST CASING SHUT-OFF	<input checked="" type="checkbox"/>	NOTICE OF INTENTION TO SHOOT OR CHEMICALLY TREAT WELL	
NOTICE OF INTENTION TO CHANGE PLANS		NOTICE OF INTENTION TO PULL OR OTHERWISE ALTER CASING	
NOTICE OF INTENTION TO REPAIR WELL		NOTICE OF INTENTION TO PLUG WELL	
NOTICE OF INTENTION TO DEEPEN WELL			

Hobbs, New Mexico.

Place

February 13, 1937

Date

OIL CONSERVATION COMMISSION,

Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the _____

Repollo Oil Company Fowler Hair Well No. 1 in NW/4
 Company or Operator Lease
 of Sec. 9, T. 24S, R. 37E, N. M. P. M., Mattix Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Set 159' of 15½" Casing at a depth of 190' on Feb. 13th.
No Cement

Set in red bed formation

Approved FEB 24 1937, 19____
 except as follows:

Subject to special regulations for
 drilling and casing wells in this
 area

OIL CONSERVATION COMMISSION,

By [Signature]Title [Signature]Repollo Oil Company

Company or Operator

Send communications regarding well to

Name L. SurrattAddress Hobbs, N. M.

1. The first part of the paper is devoted to the study of the

properties of the function

$f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!}$

for $x \in \mathbb{R}$. It is shown that this function is the exponential function e^x for all $x \in \mathbb{R}$. The proof is based on the fact that the function satisfies the differential equation $f'(x) = f(x)$ and the initial condition $f(0) = 1$.

2. The second part of the paper is devoted to the study of the

properties of the function $f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!}$ for $x \in \mathbb{C}$. It is shown that this function is the exponential function e^x for all $x \in \mathbb{C}$.

3. The third part of the paper is devoted to the study of the properties of the function $f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!}$ for $x \in \mathbb{R}$. It is shown that this function is the exponential function e^x for all $x \in \mathbb{R}$.

4. The fourth part of the paper is devoted to the study of the properties of the function $f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!}$ for $x \in \mathbb{C}$. It is shown that this function is the exponential function e^x for all $x \in \mathbb{C}$.

5. The fifth part of the paper is devoted to the study of the

properties of the function $f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!}$ for $x \in \mathbb{R}$. It is shown that this function is the exponential function e^x for all $x \in \mathbb{R}$.

6. The sixth part of the paper is devoted to the study of the

properties of the function $f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!}$

for $x \in \mathbb{R}$. It is shown that this function is the exponential function e^x

for all $x \in \mathbb{R}$.

7. The seventh part of the paper is devoted to the study of the

properties of the function $f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!}$ for $x \in \mathbb{C}$. It is shown that this function is the exponential function e^x for all $x \in \mathbb{C}$.

8. The eighth part of the paper is devoted to the study of the properties of the function $f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!}$ for $x \in \mathbb{R}$. It is shown that this function is the exponential function e^x for all $x \in \mathbb{R}$.

9. The ninth part of the paper is devoted to the study of the

properties of the function $f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!}$ for $x \in \mathbb{R}$. It is shown that this function is the exponential function e^x for all $x \in \mathbb{R}$.

10. The tenth part of the paper is devoted to the study of the

properties of the function $f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!}$ for $x \in \mathbb{C}$. It is shown that this function is the exponential function e^x for all $x \in \mathbb{C}$.

11. The eleventh part of the paper is devoted to the study of the

properties of the function $f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!}$

for

12. The twelfth part of the paper is devoted to the study of the properties of the function $f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!}$ for $x \in \mathbb{R}$. It is shown that this function is the exponential function e^x for all $x \in \mathbb{R}$.

13. The thirteenth part of the paper is devoted to the study of the

properties of the function $f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!}$

for

14. The fourteenth part of the paper is devoted to the study of the

properties of the function

$f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!}$

for $x \in \mathbb{R}$. It is shown that this function is the exponential function e^x

for all $x \in \mathbb{R}$.

15.
