Address

The lessee is Humble Oil and Refining Co.

Address Roswell, New Mexico

We propose to drill well with drilling equipment as follows:

Standard Rig - Cable Tools

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows:

We propose to use the following strings of casing and to land or cement them as indicated:

| SIZE OF HOLE | SIZE OF CASING       | WEIGHT PER FOOT | NEW OR SECOND HAND | DEPTH | LANDED OR CEMENTED | SACKS CEMENT |
|--------------|----------------------|-----------------|--------------------|-------|--------------------|--------------|
|              | 12 $\frac{1}{2}$ "   |                 | SH                 | 150'  | Cement             | 50 sacks     |
|              | 10"                  |                 | SH                 | 850'  | Landed             | -            |
|              | 8 $\frac{1}{4}$ "    | 32#             | SH                 | 1400' | Cement             | 100 sacks    |
|              | Then pull 10" casing |                 |                    |       |                    |              |
|              | 7"                   | 24#             | New                | 3400' | Cement             | 150 sacks    |

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about 3400 feet.
