PACKER-SETTING AFFIDAVIT  
(Dual Completions)

STATE OF NEW MEXICO )  
County of Lea ) ss

E. J. Smith, being first duly sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by Pan American Petroleum Corp. in the capacity of Engineer and as such is its authorized agent.

That on September 17, 1962 he personally supervised the setting of a Baker Model "FA" in Pan American Petroleum Corporation,  
(Make and Type of Packer) (Operator)

South Matrix Unit Well No. 14, located in Unit  
(lease)  
Letter K, Section 15, Township 24S, Range 37E, NMPM,  
Lea County, New Mexico.

That said packer was set at a subsurface depth of 4809 feet,  
said depth measurement having been furnished by Ram Guns, Inc.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

Pan American Petroleum Corporation  
(Company)

E. J. Smith
