Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the Stanolind Oil & Gas Company's  
State "D" Tr - 14 Well No. 1 in SW/4 SE/4  
Company or Operator \_\_\_\_\_ Lease \_\_\_\_\_  
of Sec. 16, T. 24 S, R. 07 E, N. M. P. M., Mattix Field,  
Lea County.

## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

The subject well was completed October 18, 1937, for an initial production of 7-1/2 bbls. oil and 1040 MCF gas per day, but due to lack of pipe line facilities and no market for gas, it was shut-in. We have since entered into an agreement with the El Paso Natural Gas Company, covering acreage of which this lease is a part. We desire to test this well over an extended period of time in order to determine the productivity of the same, and in this connection have made arrangements with El Paso Natural Gas Company to connect to their low pressure system.

We propose to set a separator and test tank for the purpose set out above, and respectfully request permission to produce this well as outlined herein.
