Remarks: _____
(Give explanation below)

Well #2 was re-completed in the Langlie-Mattix Pool and shut-in November 5, 1956. During the interim period Langlie Mattix gas from this 40 acre tract has been produced by Well #1. We now propose to shut-in well #1 and connect well #2 which is capable of producing at a higher rate. See Form C-103 dated 2-18-58, requesting authority to shut-in State "D" Tract 14 No. 1, for additional information. to produce well #1 and well #2 simultaneously as production from both wells is insufficient to equal the 40 acre allowable.

The undersigned certifies that the Rules and Regulations of the Oil Conservation Commission have been complied with.
