Subject: Application for Non-Standard Proration Unit and Unorthodox Well Location - Recompletion of State 'D' Well #3 (B-16-24-37) Les County, New Maxico

New Mexico Oil Conservation Commission P. O. Box 2088 Santa Fa, New Maxico 87501

Gentlemen:

In accordance with Fowler Blinebry Pool rules (Order R-2424-A), Pan American Petroleum Corporation submits this application for administrative approval of exceptions to Rules 2 & 4 for a non-standard protection unit and an unorthodox well location for our State "D" Well No. 3, located 330' FNL and 2050' FEL. Section 16, T-24-8, R-37-E, Les County, New Mexico.

This well was originally drilled and completed as a Fowler Devonian Oil well. The Devonian some has now been depleted. Since there are recompletion possibilities in the Blinebry some, we propose to open various intervals between 5509'-5594', and evaluate. Too, this well is located on a single quarter-quarter section, necessitating a non-standard proration unit.

All offset operators have been noussed by justified mail of our intention to file this application.

Yours very truly,

Original Signed by: V. E. STALEY V. E. Staley Area Superintendent
