17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Approval to drill this well was originally granted on October 17, 1972. We have since received two (2) six month extensions on this permit and it would normally expire on January 17, 1974. We respectfully request that this permit be extended for an additional six (6) months for further evaluation of existing wells in this field, with the permit to expire on July 17, 1974.

Application for extension of permit is denied. If well is to be drilled after 1-17-74, please submit a new application to drill.

James A. Clemmer
District Engineer
