Re: John Yuronka Hodges
Well No. 1, Langlie
Mattix Pool, Lea County,
New Mexico

Dear Sir:

Attached is Form C-104 on the captioned well that is being forwarded for your approval.

Rule 301 requires that a gas-oil ratio test be submitted not later than 30 days after the potential test on a newly completed well. Since it will take some 45 to 60 days to build a tank battery and make the necessary purchaser connections, it is requested that this time limit be extended to 60 days on the captioned well because of the volume of gas involved.

Very truly yours,

John Yuronka
