

## Proposed Development Plan for Surface Use

Amoco Production Company's Myers B Federal Well No. 30, Unit E, 1,650' FNL x 660' FWL, Sec 5, T-24-S, R-37-E, Lea County-(Development Well).

1. Existing roads including location of exit from main highway.

Detailed map showing drillsite location in relation to the nearest town and all existing roads within one mile of the wellsite are shown on Exhibit A. From Jal, go north on Highway 18 nine miles. Turn west on paved road and go 3/10 mile (El Paso Gasoline Plant No. 4 is on the north side of the pavement). Turn south and go 1,400' on caliche road. Turn east and go 1,400'. Turn south and go 370' to location. See Exhibits B and C.

2. Planned access roads.

No new roads will be built as existing caliche road runs adjacent to the drilling location.

3. Location of existing wells.

All existing wells within one mile radius are shown on Exhibit D.

4. Location of tank batteries and flow lines.

If the well is commercially productive, the production facilities (i.e. tanks, separators and treaters) will be located on the southeast end of the drilling pad. See Exhibit E.

5. Location and type of water supply.

Fresh water will be hauled from a water well on the Randoff Ranch. Brine water will be hauled from Eunice.

6. Source of construction materials.

Caliche will be obtained from an existing pit 1/2 miles northeast of the wellsite. See Exhibit B.

7. WASTE DISPOSAL -

- a. Drill cuttings will be disposed of in the reserve pit.
- b. Drilling fluids will be allowed to evaporate in the reserve pit until the pit is dry.
