proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-
nent to this work.) *

Our permit to drill the subject well expires May 22, 1979. Due to delays caused by negotiations with the gas purchaser for an increased gas price, it does not appear that we can obtain a drilling rig in time to meet the May 22, 1979 expiration date of our permit.

We therefore, request a 90 extension of the Drilling Permit.

Unless Drilling Operations have
Commenced, this drilling approval
Expires 8-22-79
