17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Our original permit to drill well expires November 22, 1978. Due to delays in obtaining permission from the New Mexico OCC to drill the subject well at an unorthodox location, to dually complete the well and negotiation with the gas purchaser for an increased gas price, it does not appear that we can obtain a drilling rig in time to meet the November 22, 1978 expiration date of our permit.

We therefore, request a 90 day extension of the Drilling Permit.

Unless Drilling Operations have  
Commenced, this drilling approval  
Expires. 2-22-79
