Re: Reclassification of Well -- Jalmat Pool
Phillips Goldston #1-G
Sec. 26, T24S, R36E

Gentlemen:

Due to the recently submitted gas/oil ratio test for the above-referenced well, it will be reclassified from a gas well to an oil well in the Jalmat Pool effective July 1, 1990, and the gas allowable cancelled effective that date.

If for some reason you feel this test does not properly reflect the classification of this well, please submit another test for our consideration by May 31, 1990.

This well has always been a gas well, possibly your oil production was rounded off to one barrel therefore giving a GOR of 50,000/l.

If the well is to be reclassified to oil, please furnish this office with a revised acreage dedication plat, Form C-102, outlining the 40 acres dedicated to the oil well. Also, if the gas transporter changes due to reclassification, please submit Form C-104 so indicating.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I

ed

Submitted new test remains gas
