Dear Mr. Hartman:

Permission is granted for you to produce your Phillips Goldston Well No. 1 located in Unit G of Section 26, T-24-S, R-36-E, Lea County, New Mexico, at a rate not to exceed 200 MCF per day, providing that this rate is continued following approval of your non-standard location until the over-production is made up.

You are also granted an exception to shut-in pressure testing in 1978, but exemptions are granted only on a yearly basis.

Yours very truly,

OIL CONSERVATION DIVISION
