

Proposed Development Plan for Surface Use

Amoco Production Company's South Mattix Unit Well No. 33, Unit G, 1650' FNL x 1650' FEL, Sec. 15, T-24-S, R-37-E, Lea County - (Development Well).

1. Existing roads including location of exit from main highway.

Detailed map showing drillsite location in relation to the nearest town and all existing roads within one mile of the wellsite are shown on Exhibit A. From Jal, go north on Highway 18 six miles to Jal Cooper Cementery turnoff. Turn east on caliche road and go 2.5 miles, and north on dirt road .6 miles, 200' new road to location. See Exhibit A.

2. Planned access roads.

From the existing dirt road, the new road will be 200 long. See Exhibit D.

3. Location of existing wells.

All existing wells within one mile radius are shown on Exhibit C.

4. Location of tank batteries and flow lines.

Well will be tied into existing facilities.

5. Location and type of water supply.

Fresh and brine water will be hauled by Commercial Hauler (McCasland), Eunice, N.M.

6. Source of construction materials.

Caliche will be obtained from an existing pit located approximately $\frac{1}{2}$ mile south of location. (SW/4 of SE/4, Sec. 15, T-24-S, R-37-E). See Exhibit B.

7. WASTE DISPOSAL -

- a. Drill cuttings will be disposed of in the reserve pit.
- b. Drilling fluids will be allowed to evaporate in the reserve pit until the pit is dry.
