Gentlemen:

Permission is hereby requested to sell approximately 200 barrels of oil produced from our S. J. Carr No. 10 well to the Permian Corporation.

This oil was produced during testing as a result of an unsuccessful recompletion attempt in the Fowler Devonian pool. Gulf's S. J. Carr No. 10, located in Unit M, Section 10-24S-37E, Lea County, New Mexico, is now a dry gas well in the Langlie Mattix pool and no further work is contemplated in the Fowler Devonian Zone. Gulf wishes to release the test tank used during recompletion operations.

Yours very truly,

  
R. C. ANDERSON
