Furthermore, if the proposed well is completed as a commercial producer and in compliance with the Natural Gas Policy Act of 1978, an application will be submitted to the New Mexico Oil Conservation Division to obtain administrative approval for the well as a Section 103 infill well.

Three copies of a color-coded land map outlining the subject 160-acre Jalmat (Gas) proration unit as well as the location of the original Liberty Royalties No. 5 well and the proposed location of our Liberty Royalties No. 6 infill well are enclosed for your review. Supplementing the enclosed color-coded land plat is a companion table describing by tract number and color all Jalmat (gas) proration units (including the operators of the Jalmat gas rights) that offset the proposed Liberty Royalties No. 6 infill well.

Complete copies of this application have also been sent by certified mail to all offsetting parties owning Jalmat (Gas) rights as described on the enclosed plat and table. The following is a list of the offsetting Jalmat (Gas) operators:
