**RE: AMEND WELL NUMBERS AND LOCATION
ON DIVISION ADMINISTRATIVE ORDER SD-91-10
HODGE WELL NO. 4
JALMAT-TANSIL-YATES-7 RIVERS
G, SEC. 8, T-24-S, R-37-E
FEE LAND**

Dear Mr. Stogner:

This is in reply to your letter dated November 21, 1991 concerning the discrepancy on the proposed Hodge Well No. 3 in unit letter H.

Originally, we submitted an application to drill the proposed Hodge Well No. 3 in unit letter H, 1980' FNL & 660' FEL. Your OCD office, in Hobbs, called to our attention that a Hodge Well No. 3 already existed in unit letter B, 660' FNL & 1980' FEL in the Langlie-Mattix 7 Rivers Queen Pool.

We then restaked the proposed well No. 3 in unit letter G, 1660' FNL & 1980' FEL and changed the well number to well No. 4 so that it would not get confused with the existing well No. 3 in UL B.

Please amend this order to simultaneously indicate the existing 160 acre Jalmat gas proration unit on the NE/4 of Sec. 8 to the Hodge Well No. 2 in UL B and the amended Hodge Well No. 4 in UL G.

*The well was drilled at a standard location - therefore
no need to require that SD-91-10 be amended
Evelyn Foxworth*
