Re: Conoco Application for Modification of Casing  
Requirements

Dear Mr. Sexton:

I have checked Conoco's intended drilling (8-215-33E, Lea). According to information filed with me, Section 8 is approximately six miles from the lease line of the nearest LMR. It is within the KPLA and under lease.

It is my understanding that Conoco has letters waiving objections of potash lease holders to drilling in this section. Further, the State Land Office has no objection.

Very truly yours,
