RE: COMANCHE 8 STATE #4-G
Section 8, T21S, R33E

Gentlemen:

We are returning your application for permit to drill the above-referenced well. This well is located inside the R-111P potash area and the casing program proposed is not satisfactory for this area.

Since we have not received a revision of your casing program and according to your conversation with Evelyn Downs of this office you are requesting that this application for permit to drill be withdrawn at this time.

Should you at a later date decide to drill this well, please resubmit with a casing program that follows the R-111-P requirements.

Very truly yours,

OIL CONSERVATION DIVISION
