	<input type="checkbox"/> Change of Plans
	<input type="checkbox"/> New Construction
	<input type="checkbox"/> Non-Routine Fracturing
	<input type="checkbox"/> Water Shut-Off
	<input type="checkbox"/> Conversion to Injection
	<input type="checkbox"/> Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This is a request for a variance of the casing and cementing requirements of Onshore Oil and Gas Order No. 2. We request permission to run 10-3/4" casing (11-3/4" OD couplings) in a 12-1/4" hole to 5300'. A cement volume of 250% excess is required in the area to circulate cement. This volume calculates to be a 14-1/4" average hole size. This hole size exceeds the BLM minimum requirement of 0.422" clearance on all sides.

14. I hereby certify that the foregoing is true and correct
