**RE: Application for Administrative Approval of a  
120-acre Non-Standard Proration Unit for  
Conoco's Proposed Cooper 8 No. 2 Jalmat Gas Well  
Consisting of the N/2 SW/4, SE/4 SW/4 Sec. 8,  
T-21S, R-37E, Lea County, New Mexico**

Dear Mr. Stogner:

EXHIBIT A is a plat showing Conoco's 120-acre Cooper 8 lease which is a Fee lease. There is, currently, no Jalmat producer on this lease and Conoco is proposing to drill the Cooper 8 No. 2 to be located at 860' FSL & 1980' FWL to recover Jalmat gas reserves beneath this lease.

Since Conoco only operates these 120 acres in Section 8, a NSPU will be required to produce these reserves. The proposed well will be a standard location for this size NSPU. EXHIBIT B is a copy of the Acreage Dedication Plat (C-102) for the well. If there any further questions concerning this application, please contact me at (915) 686-6548.

Very truly yours,

A handwritten signature in cursive script, appearing to read "Jerry W. Hoover".
