Place

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Shell Oil Company, Incorporated State Well No. 2 in NE/4
Company or Operator Lease
of Sec. 36, T. 24-S, R. 36-E, N. M. P. M., Langlie-Mattix Field.
Lee County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

After cementing and satisfactorily testing 8 5/8-inch casing at 336 feet, Shell State No. 2 was drilled to a total depth of 628 feet in red beds. At that time the 8 5/8-inch casing parted at 313 feet. Efforts to enter the lower section of the parted casing failed and the well was junked. Subsequent bailing tests indicated no fluid entry into the hole, therefore, no possibility of converting the well to fresh water production. It now is planned to abandon permanently Shell State No. 2 by filling the hole with mud and placing a cement bridge in the 8 5/8-inch casing at the surface.

Approved APR 6 1949, 19
except as follows:

Shell Oil Company, Incorporated
Company or Operator
