17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

IREX Operating Company proposes to change drill location from the original 660' FSL & 1980' FEL to 1880' FSL & 1880' FEL, Sec. 33, T8S, R35E, Roosevelt County, N.M.

Enclosed is a map displaying the proposed new access road to the drill location. The new access road will measure 15' wide by approximately 1300' in length. The new access road will enter the southeast corner of the location.

New access road and location were arch surveyed December 26, 1984 by Archaeological Survey Consultants.

Refer to the original Permit to Drill for proposed Drilling Program and also proposed Surface Use Plan.

Designation of Operator is filed under original permit covering the described lease.

A \$25,000.00 statewide oil and gas bond under IREX Operating Company covers federal lease operations. Bond received by the BLM in Santa Fe, November 9, 1984.
